

General Manager, Transport: Cohuna

Mawsons is a family-run business that supplies quality construction materials throughout Northern Victoria and Southern N.S.W. We are seeking an experienced Fleet Manager to provide leadership for our Cement, Quarry and Concrete transport functions and related mobile plant maintenance across the Mawsons Group. The GM Transport will also be responsible for driving our Mawsons Mechanical business and related Cummins distributorship in Cohuna. This position reports to the Managing Director.

Based at our new Cohuna facility, the GM Transport will have a strong focus on safety, internal and external customers, staff development and efficiency. Key responsibilities include:

- Ensuring safe & professional transport services & records are provided across Mawsons consistent with company policies & procedures
- Ensuring Chain of Responsibility (COR) compliance procedures are continuously improved, implemented and audited across the Group.
- Ensuring equipment and processes are in place or being put in place to comply with relevant state and federal transport regulations.
- Providing leadership and coaching for transport managers, drivers and mechanics around Mawsons.
- Managing contractual arrangements with approximately 25 regular sub-contract carriers and external mechanical service providers
- Overseeing the transport payment structure calculations for all divisions and liaise with marketing for charge out rates
- Ensuring an effective support network of suitable casual tipper subcontractors (currently ~100) to deliver Mawsons' products; negotiating project rates and using back loading opportunities
- Keeping abreast of Victorian & NSW Transport regulations and all relevant OHS requirements for on-road transport– eg COR, Fatigue Management, PBS etc.
- Working with Mawsons' transport management team to make recommendations on capital requirements in terms of plant changeovers, configurations and adoption of the latest technology.
- Managing both transport division and individual unit profitability and budget preparation by hands on management and detailed understanding of revenue, utilisation and costs for each unit.
- Managing and developing the external Mawsons Mechanical business and related Cummins distributorship in Cohuna.

The successful applicant will need to be strong team player and mentor who consistently displays attention to detail with their work.
