

Resource Development Manager

Mawsons is a family-run business that produces quality construction materials throughout Northern Victoria and Southern N.S.W. We seek a self-motivated and responsible person for the full-time position of Resource Development Manager. This is a key strategic role within Mawsons' quarry group: leading projects to develop Quarry Work Authorities and Development Approvals for our sand, stone and gravel resources.

Reporting to the General Manager, Quarries, duties include;

- working with various authorities such as Local Government, EPA, and Earth Resources Regulations as well as a number of specialist, supporting consultants,
- assisting the General Manager and Managing Director on strategic projects to vary or extend existing approvals,
- initiating and gaining approvals for greenfield projects,
- researching land acquisitions and reserve / resource due diligence.

The successful applicant will need to be totally committed to safety and quality and have an energetic personality. We require a person with excellent relationship building and project management skills and the ability to work across a multi-disciplinary team. Experience working with local councils and liaising with a broad range of government bodies, as well as with specialist consultants, is essential. Location for this role can be flexible but likely to be based out of our Echuca, Cohuna or Bendigo offices. Relevant tertiary qualifications and/or commensurate experience essential.
