

## **Welder/Fabricator Cohuna**

Mawsons is a family-run business that produces quality construction materials throughout Northern Victoria and Southern N.S.W. We seek a qualified welder/fabricator to join our friendly and professional engineering/maintenance team at our workshop in Cohuna.

The successful candidate will be required to perform a range of welding, thermal cutting and fabrication skills for the construction, maintenance and repair of quarry, concrete and mobile plant. Work will be required at Mawsons' Cohuna workshop and other sites throughout northern Victoria and southern New South Wales so there will be a need to be flexible with working hours and occasional weekend work.

The successful applicant will need to be committed to safety and quality and have excellent communication and teamwork skills. Additional qualifications and/or tickets would be an advantage as would a heavy rigid truck licence. Mawsons is committed to developing its people and opportunities will arise to enhance further learning throughout the company for the right applicant.

### **To apply**
