

New Cohuna Workshop Facilities Seeking Qualified Mechanic

Mawsons Mechanical is our heavy vehicle diesel workshop and Cummins Dealership soon to be re-located into a brand new, purpose built, workshop in Cohuna. Equipped with the latest equipment and amenities the new Cohuna workshop is state of the art. We seek a qualified diesel mechanic who displays a positive attitude towards workplace health and safety, is extremely reliable and shows high attention to detail. This rewarding role will involve servicing a wide range of trucks, tractors and other heavy equipment for external customers and also maintaining some of Mawson's own concrete and quarry equipment.

The successful applicant will enjoy above award rates, flexible working conditions, on the job training and long term employment. Career development and progression will be offered in this role and relocation assistance is available. (Conditions apply) If you have the necessary skills and experience, and feel you would be a great fit to our "AWESOME" team, please apply now!
