

## **Qualified Diesel Mechanic Full time role**

Mawsons Mechanical is a heavy vehicle diesel workshop and Cummins dealership soon to be situated in a new, purpose built, workshop in Cohuna with leading equipment and amenities. We are seeking a qualified diesel mechanic to join our professional and friendly workshop team. This rewarding role will be servicing a wide range of trucks, tractors and other equipment for external customers and also servicing a component of Mawson's concrete and quarry equipment. Attractive above award rates and training opportunities are on offer for this permanent role, in line with experience and skills set. If a rewarding job, in a great location, with a family-values company sounds like you, then please forward your resume and cover letter as below. Initially the role will be based from our Barham workshop.
