

Qualified Heavy Vehicle Diesel Mechanic

Mawsons Mechanical

Mawsons is a family-run business that produces quality construction materials throughout Northern Victoria and Southern N.S.W. Mawsons Mechanical is our heavy vehicle diesel workshop and Cummins Dealership located at our new, purpose built workshop in Cohuna. We seek a qualified HV Diesel Mechanic who is motivated and conscientious to fill this full time position in our state of the art workshop; equipped with the latest equipment and amenities.

Reporting directly to the site Manager, you will need to have a positive attitude towards workplace health and safety, be extremely reliable and show high attention to detail. This rewarding role will be servicing a wide range of trucks, tractors and other heavy equipment for external customers and also servicing a component of Mawson's concrete and quarry equipment.

The successful applicant will enjoy above award rates, flexible working conditions, on the job training, and long-term employment. Career development will be offered in this role and relocation assistance is available. (Conditions apply)
